OUR STORY

YEAR
1993

Imtiaz was born from a deep-rooted belief that real estate is far more than bricks and mortar - it is about shaping lifestyles, building legacies, and crafting environments that inspire generations. What began as a modest construction endeavour in 1993 has since evolved into one of the UAE's most respected and visionary real estate development companies.

DEVELOPMENTS

AED 10Bn

We continue to shape Dubai's skyline and the lives within it.

At Imtiaz, we do more than develop properties — we craft experiences. Every project echoes our deep passion for architecture, purposeful design, and sustainable living. From luxury residences to waterfront communities and concept-driven spaces, each development is created to enrich lives and leave a lasting impact.

TWO LEGACIES ONE VISION

Zaha Hadid reinvented architecture through movement, geometry, and light. Her legacy lives on in this collaboration with Imtiaz, where visionary design converges with decades of craftsmanship to form a landmark that continues her dialogue between form, structure, and the human spirit.

Zaha Hadid Architects

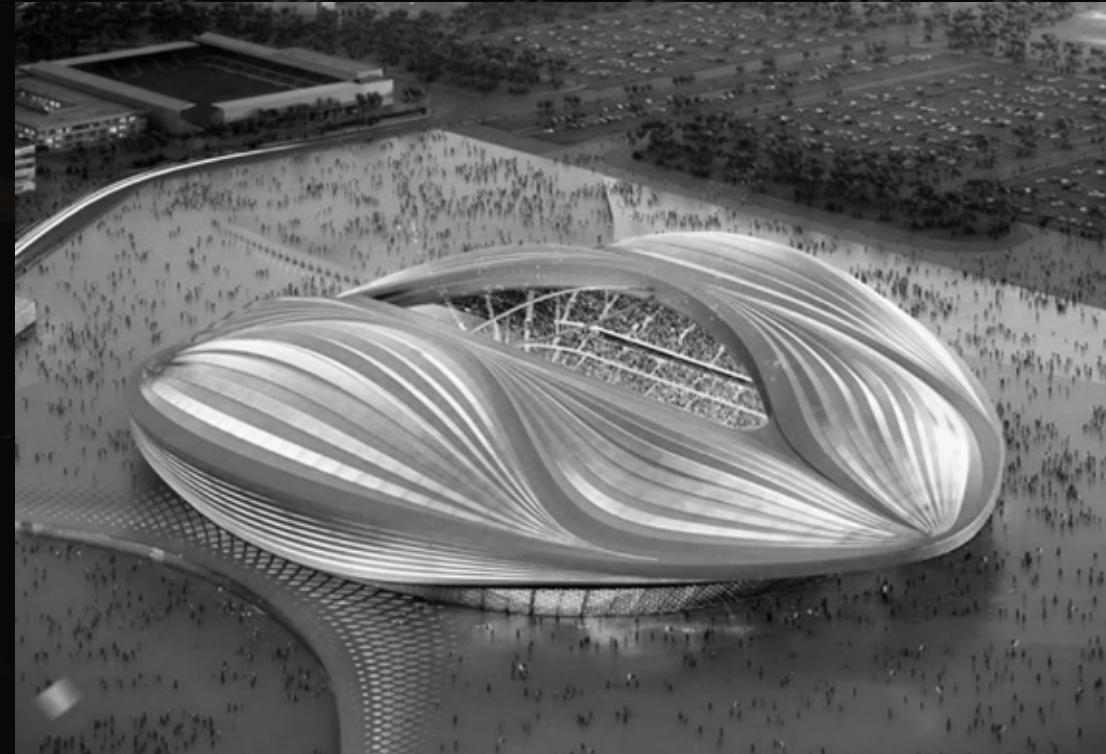

Zaha Hadid

Zaha Hadid (1950-2016) was an Iraqi-born, London-based architect whose visionary, boundary-breaking designs transformed global architecture.

After studying mathematics in Beirut and earning her AA Diploma in London, she founded Zaha Hadid Architects in 1979. Her work—celebrated for its fluid geometry, inventive use of materials, and bold public spaces—earned her the Pritzker Architecture Prize, the Stirling Prize (twice), the Royal Gold Medal, and honours from institutions worldwide. Hadid taught at leading universities including Harvard, Yale, and Columbia, and her projects were showcased in major museums such as the Guggenheim and the Hermitage. Her buildings combined beauty, ideology, and technical mastery, consistently exceeding expectations and reshaping what architecture could be.

REVEALING THE RARITY

The Symphony emerges as a singular expression of vision and craft. Every line, material, and proportion has been composed with intention, revealing a building that is not defined by scale, but by precision, depth, and quiet distinction. A creation rare not by chance, but by design.

WOVEN IN THE SANDS OF TIME

From the deserts of the Emirates came an art. Al Sadu and Al Talli, two timeless crafts, carried the rhythm of life across generations. Each thread spoke of the connection between people, nature, and purpose.

THE ASCENDANCE OF A SPECTACLE

It ascends not to dominate the skyline, but
to redefine it. The Symphony stands as a
spectacle of flow, balance, and human emotion
carved in structure.

A MONUMENT OF MAJESTY

The Symphony rises with a poise that
needs no declaration. Its form, light and
rhythm work in harmony to create a
landmark of undeniable majesty.

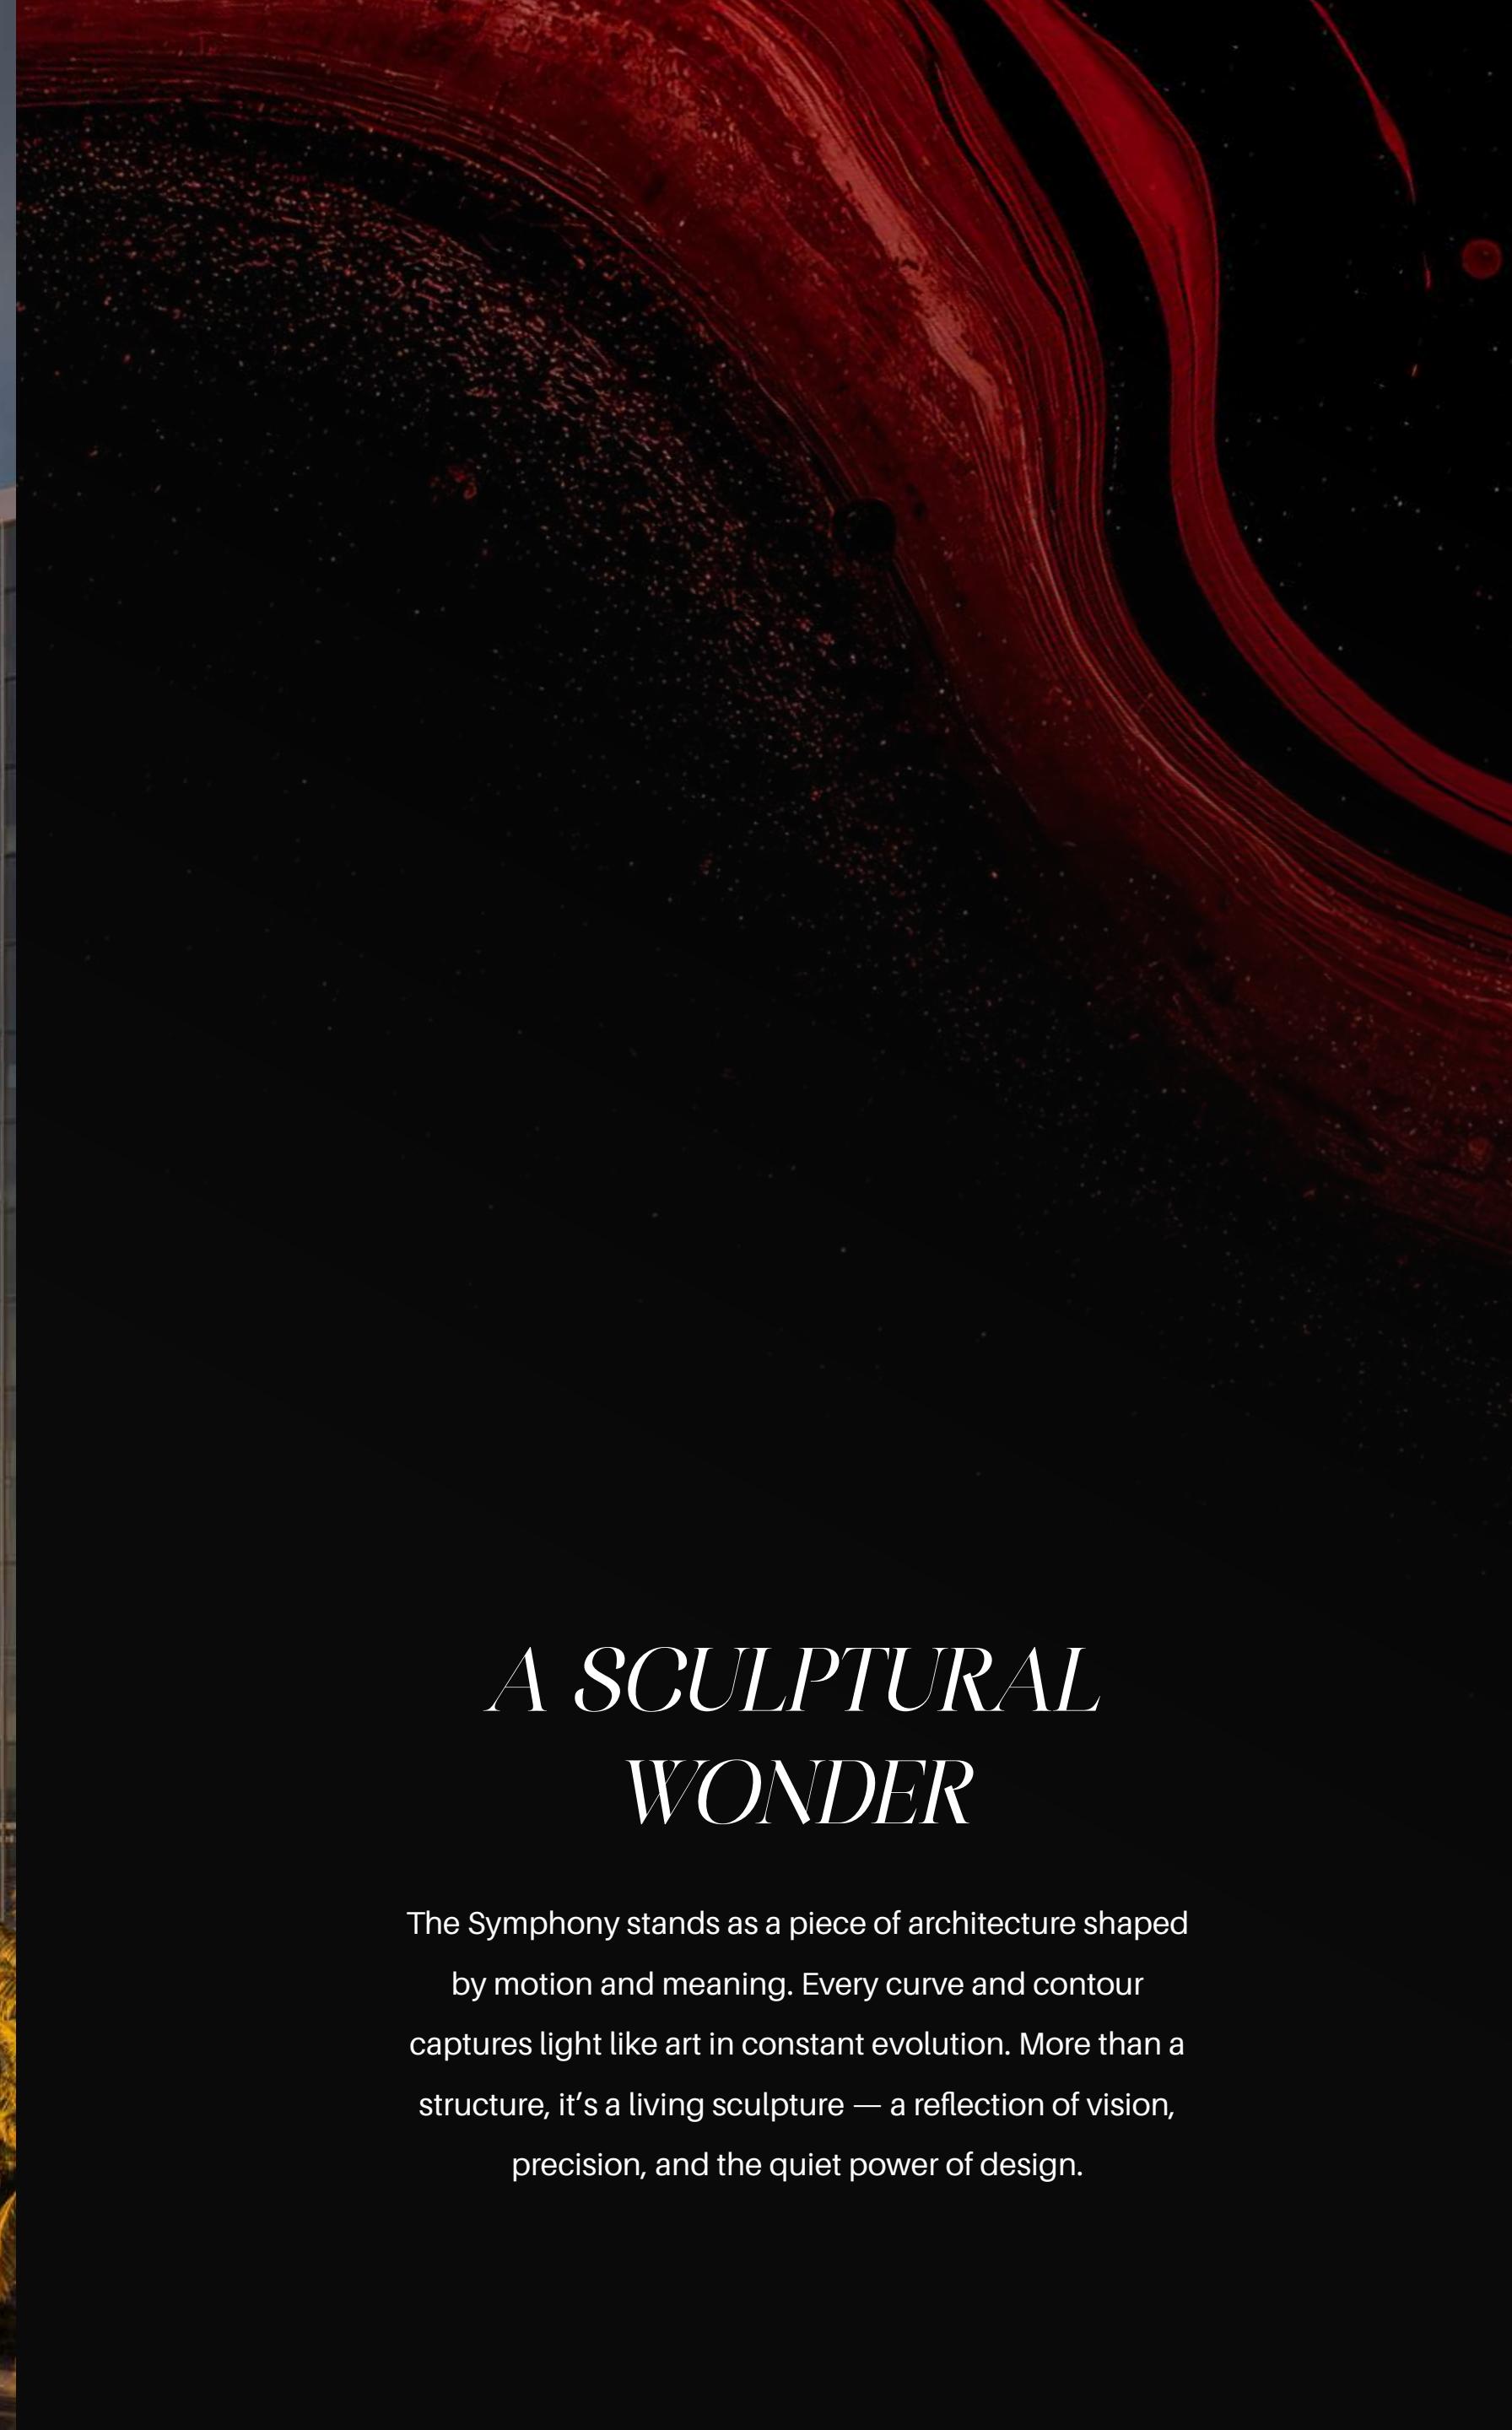

POETRY & FORM

A SCULPTURAL WONDER

The Symphony stands as a piece of architecture shaped by motion and meaning. Every curve and contour captures light like art in constant evolution. More than a structure, it's a living sculpture — a reflection of vision, precision, and the quiet power of design.

AN OASIS IN THE SKY

More than an escape, it's a state of being. A place where you rise, slow down, and finally feel still.

AT THE PULSE OF DUBAI

Rooted in one of Dubai's most future-forward districts, Meydan blends elite urban living with master-planned ease, offering seamless connectivity, emerging transit, and proximity to Downtown and Business Bay.

THE ART OF THE UNCOMMON

Every curve, line, and reflection at The Symphony is shaped to defy expectation. Its exterior stands as a living sculpture; fluid, precise, and effortlessly distinct. Within, a lifestyle unfolds that mirrors its architecture: composed, considered, and entirely uncommon.

A PRIVATE VIEW OF THE INFINITE

From your balcony, the city fades into stillness and the horizon expands without end. Here, space and sky become one continuous frame — composed for reflection, designed for wonder.

A DIALOGUE OF NATURE AND SOUL

The architecture breathes with its surroundings; open, organic, and calm. Layers of texture and shade evoke the patterns of nature, creating a sense of stillness in motion. Living here is to experience balance; a quiet conversation between design, landscape, and the spirit within.

A person in a flowing red dress is floating in a body of water, their arms outstretched. The background is a warm sunset or sunrise over water, with light rays and a cloudy sky.
